A short description of the Programme: -

The goals of the Deeksharambh Student Induction Programme are to assist newcomers in settling in and becoming at ease in their surroundings, instil in them the values and customs of the institution, facilitate their socialisation with fellow students and staff, and introduce them to the concepts of self-discovery and a broader purpose. The college setting, academic standards, facilities, resources, and support services were introduced to the students. It attempts to assist students in adjusting to college life smoothly, becoming familiar with their course of study, and successfully navigating the campus. The department's faculty, principal, and head, all welcomed them.

In addition to information about college policies, rules, and regulations, they were given an outline of the college's goal, vision, values, and academic programmes. Procedures pertaining to attendance, grading, academic integrity, and behaviour were also explained to students. This guarantees that they are aware of their obligations and the repercussions of breaking the rules. They were also given instructions on how to interact with faculty members, turn in assignments, and access academic resources. The prerequisites and structure of the academic programme that each student had selected were explained to them. They become knowledgeable about the courses, curriculum, and study order they will be following. They are better able to organise their academic trajectory and comprehend the requirements as a result.
